## Setting Up for Clinical Success™ 2nd Edition

Michael Thompson & Lynda Thompson

*Harness the skills of Doctors Lynda and Michael Thompson using a remarkable CD designed for neurofeedback practitioners.*

The 2nd Edition of Setting up for Clinical Success, published by the BFE is ideal for psychologists, physicians, nurses, teachers, and trainers. This CD helps you to use the Thought Technology Infinity biofeedback system to the max.

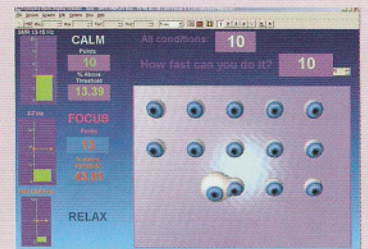

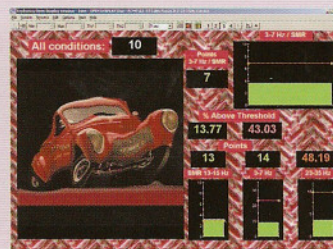

Lynda and Michael Thompson's proven approach to combine neurofeedback, biofeedback, and metacognition will help you to guide your clients, of all ages, to fast efficient learning and a calm, reflective, organized approach to work. This CD will also be a source of information and inspiration for successful interventions with a range of challenges; ADHD, learning problems, anxiety, Tourettes, Asperger's Syndrome, through to optimizing performance.

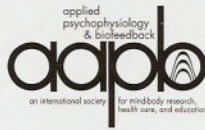

If you want to benefit from Drs Lynda and Michael Thompson's wealth of clinical experience to use applied psychophysiology with your clients and optimize their performance through self-regulation at school, work or in extracurricular activities you will love this CD.

The self-installing CD includes over 40 specialized screens for clinical assessment, stress profiling and to motivate and train clients. An 84-page guide gives practitioners a basic start so that they can begin using the BioGraph Infinity™ program with a range of clients.
